

SMART SOLUTIONS IN VEGETABLE OILS & FATS

**Supply Chain Management
Boxed Products**

Full Control of Supply Chain Management

Sime Darby Unimills is an international supplier of vegetable oils and fats in both bulk and boxes. Our reputation for high-quality vegetable fats is based on our in-depth knowledge and experience of processing oils and fats gained in 100 years. In everything we do we believe in developing responsible value innovations by fostering health and sustainability.

Our products are delivered in weight of 10, 20 and 25 kg cardboard boxes. The minimum order contract is 20 metric tons of one product per annum. We follow a strict order-to-contract principle. This means that we produce a minimum batch of 20 metric tons at the first call off order. To offer maximum flexibility, the collection can be divided over several months after production*. Up to four weeks prior to contracted manufacturing date, the production can be rescheduled in mutual agreement.

To assure the highest product quality, we always use and advice cooled transport. International export documents, such as a certificate of origin and a health certificate to assure that the product is fit for human consumption, will be taken care of by us.

We work closely with external warehouses for dispatch of the packed products to ensure maximum efficiency. The state of the art automation system for warehousing and transport gives reliable and detailed information about actual stock levels, order tracking and remaining shelf life of the product. We can grant free access to control and monitor your products on-line in real time.

Boxed Product Guidelines:

- Minimum order quantity is 20 metric tons per annum
- Minimum manufacturing batch size is 20 metric tons
- Product shelf life is guaranteed up to 12 months after manufacturing date as agreed in contract.

*Sime Darby Unimills is not responsible for decreasing shelf life duration after production date upon collection.

The Packaging Process

Our packaging line is a state of the art machinery, which complies to the latest food safety standards. It has an automatic bag inserter, applies a vacuum to protect the product, and seals the bag automatically.

Cardboard Boxes

You can choose between cardboard boxes in weight of 10, 20 or 25 kg. The brown cardboard box is printed with standard information about batch number, product name, expiry date and storage conditions. The printing color is black. Next to the standard printed information, there are 2 lines available for free text. Also, we offer to label the box which custom made information.

The choice of pallet type depends on the storage possibilities and to which country the products will be dispatched. We use two standard pallet types: The standard euro pallet and a block pallet.

Most of the used wooden pallets comply with FSC principles and criteria. The cardboard boxes are manufactured from recycled paper. The MDPE bag inside the box is made from 100% approved food grade virgin raw material, with a thickness of 30 μ . After use, the bag can be recycled completely.

Box Dimensions:

Box 10 kg: L385xH285xD120 mm

Box 20 kg: L385xH285xD215 mm

Box 25 kg: L385xH285xD252 mm

Euro Pallet (800mm x 1200mm):

Box	Stacking	# Boxes	Net Weight	Total Height
10 kg	10x7	70	700 kg	1200 mm
20 kg	5x7	35	700 kg	1075 mm
25 kg	5x7	35	875 kg	1008 mm

Block Pallet (1000mm x 1200mm):

Box	Stacking	# Boxes	Net Weight	Total Height
10 kg	10x10	100	1000 kg	1200 mm
20 kg	4x10	40	800 kg	1075 mm
25 kg	4x10	40	1000 kg	1008 mm
